

Dear costumer.

I am sending this emails to communicate the finalization of the average system.

To execute the web page please click in the file **“index.html”**

In the box for **“Quantity”** please enter the number of scored goals. Numbers bigger than zero and letters or others are not allowed).

In the box for **“Goals”** please enter the number of the expected scored (Numbers bigger than zero and letters or others are not allowed).

To clean the data and the result please press the button **“Clear Data”**

To calculate the result please press the button **“Calculate”**

If you need to show or hide the status bar please press the button **“Hide Bar” / “Show Bar”**

If you wish to read the instructions please press the button **“Instructions”**

In any case about to understand the functionality of the system you may contact with me at any moment. Thanks by your attention and your confidence with our company.

Best regards.

Your developer friend Isaac David Morera Vargas.
